

**REQUEST FOR EXPRESSIONS OF INTEREST
(INDIVIDUAL CONSULTING SERVICES)**

Federated States of Micronesia (FSM) Nationals Only

**FEDERATED STATES OF MICRONESIA
DIGITAL FSM PROJECT**

Grant No.: P170718

Assignment Title: Digital Project Officer

Reference No.: FM-DOTCI-300692-CS-INDV

The Government of the Federated States of Micronesia has received financing from the World Bank toward the cost of the Digital FSM Project and intends to apply part of the proceeds for consulting services.

The consulting services (“the Services”) include liaising and working with the Assistant Secretary of the Division of Communications who provides the overall leadership of the Digital FSM initiative, consultants, CIU staff and other Departmental staff in relation to the Project.

The Terms of Reference (TOR) for the assignment are attached to this request for expression of interest.

The Department of DTC&I now invites eligible consulting firms (“Consultants”) to indicate their interest in providing the Services. Interested Consultants should provide information demonstrating that they have the required qualifications and relevant experience to perform the Services (attach curriculum vitae with description of experience in similar assignments, similar conditions, etc.)

The attention of interested Consultants is drawn to Section III, paragraphs, 3.14, 3.16, and 3.17 of the World Bank’s “Procurement Regulations for IPF Borrowers” July 2016 setting forth the World Bank’s policy on conflict of interest.

Further information can be obtained at the address below during office hours: *8:00 AM to 5:00 PM*.

Expressions of interest must be delivered in a written form to the address below (in person, or by mail, or by fax, or by e-mail) by **January 6th, 2023**.

FSM World Bank Projects

Digital Project Officer

TERMS OF REFERENCE

LOCATION: FSM National Government, Palikir – Project Implementation Unit (PIU)

DURATION: Initial contract duration of two year (full time) with 3 months probationary period. Potential to extend based on satisfactory performance.

A. Background

The Government of the Federated States of Micronesia (FSM) has received financing from the World Bank to establish, develop and deliver Digital transformation, facilitating enablement and access to online government and private sector services.

To achieve this goal, the Digital FSM project has a wide remit. The scope of the project ranges from upgrading and improving connectivity infrastructure throughout all States, to developing the legal and regulatory environment to enable and support digital transformation through to preparing and develop the wider social support structures needed to be in place.

The Project is governed through a Steering Committee that includes representatives from each State and the key National Government Agencies affected (DTC&I, DoFA, DHSA and DoJ).

Digital FSM Office (DFO) is the lead implementation group of FSM Digital Transformation plan, and is also the central authority for Digital strategy, governance, enterprise architecture as well as the central interface to all government department and sectors in both the national and state governments. The DFO has been established as part of the Department of Transportation, Communications and Infrastructure (DTC&I) and is the lead agency for the Digital FSM Project.

The project is establishing a core digital office in Palikir. This has been approved by the Project Steering Committee in August 2022 and the aim is to recruit and then build a local capability to support both National Government and State Governments to implement their digital strategies.

The Project Officers will liaise and work with the Assistant Secretary who provides the overall leadership of the Digital FSM initiative, consultants, CIU staff and other Department staff. The operating model of the DFO, positions the project officer roles as principal administrators, coordinators, facilitators and liaison officers between the Digital Project, Subject Matter Experts and the FSM community across the National, State and functional stakeholders. This approach ensures a collaborative and consultative approach to delivery as well as developing local capability in the Digital and project domain.

The workstreams for these roles are, but not limited to, DFO Portfolio, State Governments, Department of Health & Social Affairs, Department of Justice, Department of Education, FSM Systems and Applications officers.

B. Scope of Work

Project and Portfolio Coordination

- Management of the coordination of multiple streams of work across the DFO's portfolio of work ensuring the agreed outcomes are communicated, and coordinated between the DFO and its stakeholders
 - Take ownership of following up and resolving the actions and tasks assigned between the project, subject matter experts and stakeholders,
 - Lead conduit for communications and/or escalations between the stakeholders and the DFO on assigned stream(s)
 - Develop, prepare and deliver reporting requirements from stream for the DFO and Stakeholders governance or steering committee's needs,
 - Escalate any issues or concerns through the DFO team
 - Collaborate with other projects or workstreams that have key relationships with the DFO and its portfolio of work
 - Develop the DFO Project team capability as a reliable and trusted partner in the team, division, and government
 - Advocate for change and digital transformation, both in National, State and the general population. This includes wider citizen engagement and consideration of wider Environmental and Social Factors (ESF) associated with the Project and Digital Transformation.

C. Expertise Requirements and Selection Criteria

Mandatory Requirements (pass /fail)

- Associate Degree or Diploma from a recognized institution;
- Fluency in written and spoken English;
- Competency in the use of computer applications, especially MS Office and Excel
- Experience in Stakeholder engagement and management across multiple initiatives
- Personal resilience working in a complex and changing environment of requirements
- Understanding of Digital concepts and capabilities

Additional Desirable Requirements:

- Bachelor's Degree from a recognized institution in Accounting, Business Administration, or other relevant degree. (This would also include Certification or relevant experience in Project Management frameworks)
- Experience with working in a program or project team environment managing multiple stakeholders (Experience working in a project environment understanding project principles and frameworks for delivery – particularly in a portfolio);
- Experience with Digital concepts and capabilities (including Business and Workflow analysis).
- Government (National/State) and sectoral experience and understanding of its operating model.
- Knowledge of one or more of the local languages.

Duration of the Period

The position will be for an initial two (2) year period. This is a full-time position and may be extended based on satisfactory performance.
